
1977 AIR LINE PILOT COMPLETE INDEX

AUTHORS

Bergaust, Erik: "Airline pilot" Wernher von Braun, Aug.; What's happening to the weather?, Nov.

Blanchard, Capt. Gordon C.: Barnstorming memory, Feb.

Broocke, Capt. W. R.: The devil's aviation dictionary, Sept.

Burgin, Robert E.: The missed approach, Aug.

Burkhardt, Robert: NTSB's new look, Feb.

Cleveland, Carl M.: "Short Snorter" origin solved, July.; One-day airline, Oct.

Coleman, Martha: An inventive furlough, Jan.; ALPA aeromedical office, Mar.; Where masters restore history, Apr.; "Sky Eye," June.

Considine, Bob: Aloha Lindy, May.

Cuzzort, Douglas J.: ALPA scholar pursues aviation career, Dec.

Davis, Lou: The educator's tool for the industry's future, Dec.

Eastman, Al: Retrofit—burlesque at the tailpipe, Apr.

Ellis, Steve: The Boeing 40 Series: Transcontinental pioneers, Nov.

Feldman, Joan: Commuters come of age, Mar.; Air stance wobble begins to steady, May.

Fredrickson, Capt. J. T.: Wind shear: An energy management program, Sept.

Gerber, Capt. Ray: The fourth "S," July.

Glines, C. V.: Duncan v. United States, Jan.; Waynoka postscript, Jan.; IFALPA: The self-help organization, Feb.; Is terrorism still a threat?, Mar.; NYA: The rooftop airline, Mar.; Seaboard's world, Mar.; Aviation decision maker: Brock Adams, Apr.; The question: To land or not to land?, Apr.; The Boston noise squabble, May.; Probable cause: Visual illusions?, May; The Guggenheims: Men of vision, June.; Airlift: A most experienced airline, July.; Cattle lift!, July.; Where time begins, Aug.; Crew complement: The changing viewpoint, Oct.; A300: What's it like?, Nov.; FAA and new visibility minima, Nov.; MEL abuses erode safety margins, Dec.; 1927: "A year of outstanding brilliance," Dec.

Gravat, Jack: The perfect two-point landing, July.; Daedalians honor pilot's professionalism, Aug.; Where the Wrights taught the Army to fly, Aug.; NIFA—the new breed, Sept.; The trip before the trip, Oct.; Air safety and deregulation: On a collision course?, Nov.; He's here to help, Nov.; Working it out at Allegheny, Dec.

Gurney, Capt. Harlan "Bud": The spirit of Lindbergh, May.

Harris, James L., Sr.: What makes a visual approach "nonvisual," May.

Haugland, Vern: Airliners of the '80's, Aug.; "Out of the never-never land," Oct.

Hearn, Gerri: Geronimo!, Mar.

Heiman, Grover: An energy overview, Feb.; Aviation and energy alternatives, Mar.; Coal to jet fuel?, Apr.; Carter energy plan effect, June.

Henzey, Bill: Safety concern buried in deregulation drive, June.

Hodgdon, Keith: Barnstorming the boondocks, Apr.

Hoehling, Clara L.: Records are for breaking, Dec.

Holder, William G.: WASP's: The forgotten "warriors," Oct.

Hollenbeck, Cliff: Flying above the lower '48,' Jan.

Hopkins, George E.: In search of an ancient airfield, Jan.

James, Dr. George W.: Match financial performance with capital needs, June.

Joffrion, Capt. F. J.: We hold these truths, Feb.

Kelleher, Anne: A one-of-a-kind aircraft, Apr.; Don't guess, dial CHEMTREC, July.; To Fly!, Dec.

Koch, S/O David C.: The profession's new frontier, Dec.

Lissau, Steve: The purest way to fly, Nov.

Maher, Theodore: If God had wanted man to fly, June.

Martindale, David: Midway's future: Still up in the air, Jan.

Martinez, Esperison Jr.: Guiding ALPA's destiny, Jan.; Deregulation or reregulation?, June.; Conquering blind flight, July.; Big Red, Aug.

Mikesh, Robert C.: The Japanese "Gooney," Apr.

Miller, Capt. Ed Mack: Le Bourget '77, Oct.

Morgan, Capt. Len: It's all in the family, Oct.

Morgan, F/O Terry: Skirting the pylons, Apr.; It's all in the family, Oct.

Nixon, Stuart: Transportation's third century, Jan.; Aviation decision maker: Webster B. Todd, Jr., Feb.; Carter's charter, Mar.; Designer in the cockpit, July.; ASRS: Getting a grip on safety, Oct.

O'Donnell, J. J.: Human factors and aircraft certification, June.

Repak, F/O Harry: Flight of the *Silver Fox*, Feb.

Rodger, W. A.: Peregrine One, Mar.

Roth, M. A.: The week that Congress flew, May.

Ruddy, Capt. John J.: Let's not operate in the dark, Aug.

Sherman, Capt. Robert C.: Seniority and the pilot, Sept.

Smith, Capt. George C., Jr.: Deregulatory déjà vu, July.

Snyder, Jim: World's most important flying machines, Sept.

Walders, Joe: Cinema bloopers, May.

Williams, Capt. J. R.: A dream pays off, Apr.

Yates, Capt. Andy D., Jr.: Cockpit discipline, Feb.

SUBJECTS

Aerospace: A one-of-a-kind aircraft, Apr.; "Out of the never-never land," Oct.; The profession's new frontier, Dec.

Aircraft: The Japanese "Gooney," Apr.; Where masters restore history, Apr.; If God had wanted man to fly, June; Big Red, Aug.; World's most important flying machines, Sept.; A300:

FEATURE ARTICLES

A300: What's it like? (Glines), Nov.
Airlift: A most experienced airline (Glines), July.
"Airline pilot" Wernher von Braun (Bergaust), Aug.
Airliners of the '80's (Haugland), Aug.
Air safety and deregulation: On a collision course? (Gravat), Nov.
Air stance wobble begins to steady (Feldman), May.
Aloha Lindy (Considine), May.
ALPA aeromedical office (Coleman), Mar.
ALPA scholar pursues aviation career (Cuzzort), Dec.
ASRS: Getting a grip on safety (Nixon), Oct.
Aviation and energy alternatives (Heiman), Mar.
Aviation decision maker: Brock Adams (Glines), Apr.
Aviation decision maker: Webster B. Todd, Jr. (Nixon), Feb.
Aviation higher education: Four views of the future (Hansen), Dec.
Barnstorming memory (Blanchard), Feb.
Barnstorming the boondocks (Hodgdon), Apr.
Big Red (Martinez), Aug.
The Boeing 40 Series: Transcontinental pioneers (Ellis), Nov.
The Boston noise squabble (Glines), May.
Carter energy plan effect (Heiman), June.
Carter's charter (Nixon), Mar.
Cattle lift! (Glines), July.
Cinema bloopers (Walders), May.
Coal to jet fuel? (Heiman), Apr.
Cockpit discipline (Yates), Feb.
Commuters come of age (Feldman), Mar.
Conquering blind flight (Martinez), July.
The costliest fix (Nixon), Mar.
Crew complement: The changing viewpoint (Glines), Oct.
Daedalians honor pilot's professionalism (Gravat), Aug.
Deregulation or reregulation? (Martinez), June.
Deregulatory déjà vu (Smith), July.
Designer in the cockpit (Nixon), July.
The devil's aviation dictionary (Broocke), Sept.
Don't guess, dial CHEMTREC (Kelleher), July.
A dream pays off (Williams), Apr.
Duncan v. United States (Glines), Jan.
The educator's tool for the industry's future (Davis), Dec.
An energy overview (Heiman), Feb.
FAA and new visibility minima (Glines), Nov.
Flight of the *Silver Fox* (Repak), Feb.
Flying above the lower '48' (Hollenbeck), Jan.
The fourth "S" (Gerber), July.
Geronimo! (Hearn), Mar.
The Guggenheims: Men of vision (Glines), June.
Guiding ALPA's destiny (Martinez), Jan.
He's here to help (Gravat), Nov.
Human factors and aircraft certification (O'Donnell), June.
IFALPA: The self-help organization (Glines), Feb.
If God had wanted man to fly (Maher), June.
In search of an ancient airfield (Hopkins), Jan.
An inventive furlough (Coleman), Jan.
It's all in the family (T. Morgan, L. Morgan), Oct.
Is terrorism still a threat? (Glines), Mar.
The Japanese "Gooney" (Mikesh), Apr.
Le Bourget '77 (Miller), Oct.
Let's not operate in the dark (Ruddy), Aug.
Match financial performance with capital needs (James), June.
MEL abuses erode safety margins (Glines), Dec.
Midway's future: Still up in the air (Martindale), Jan.
The missed approach (Burgin), Aug.
NIFA—the new breed (Gravat), Sept.
1927: "A year of outstanding brilliance" (Glines), Dec.
The 95th Congress, Jan.
NTSB's new look (Burkhardt), Feb.
NYA: The rooftop airline (Glines), Mar.
One-day airline (Cleveland), Oct.
A one-of-a-kind aircraft (Kelleher), Apr.
"Out of the never-never land" (Haugland), Oct.
Peregrine One (Rodger), Mar.
The perfect two-point landing (Gravat), July.
Probable cause: Visual illusions? (Glines), May.
The profession's new frontier (Koch), Dec.
The purest way to fly (Lissau), Nov.
The question: To land or not to land? (Glines), Apr.
Records are for breaking (Hoehling), Dec.
Retrofit—burlesque at the tailpipe (Eastman), Apr.
Safety concern buried in deregulation drive (Henzey), June.
Seaboard's world (Glines), Mar.
Seniority and the pilot (Sherman), Sept.
"Short Snorter" origin solved (Cleveland), July.
Skirting the pylons (Morgan), Apr.
"Sky Eye" (Coleman), June.
The spirit of Lindbergh (Gurney), May.
To Fly! (Kelleher), Dec.
Transportation's third century (Nixon), Jan.
The trip before the trip (Gravat), Oct.
WASP's: The forgotten "warriors" (Holder), Oct.
Waynoka postscript (Glines), Jan.
The week that Congress flew (Roth), May.
We hold these truths (Joffrion), Feb.
What makes a visual approach "nonvisual" (Harris), May.
What's happening to the weather? (Bergaust), Nov.
Where masters restore history (Coleman), Apr.
Where the Wrights taught the Army to fly (Gravat), Aug.
Where time begins (Glines), Aug.
Wind shear: An energy management program (Fredrickson), Sept.
Working it out at Allegheny (Gravat), Dec.
World's most important flying machines (Snyder), Sept.

AIR LINE PILOT VIEWPOINTS

January: The beginning of the third century.
February: People power at work.
March: A record to be proud of.
April: Head start on transportation (guest editorial).
May: The cruel hoax of deregulation.
June: The mirage of deregulation (guest editorial).
July: Noise abatement and tax incentives.
August: "In recognition of outstanding contributions . . ."
September: Needed: Another Billy Mitchell.
October: A time for chauvinism in air travel.
November: The only solution to skyjacking.
December: The noise dilemma: A way out.
